

GOVERNMENT INSTITUTIONS PENSION FUND EOI Number: GIPF EOI007/2015

Expression of Interest and Request for Proposals

DEPARTMENT: Investments

Applications are now invited for the following services: **Unlisted Investments–Private Equity/Venture Capital Fund Management**

In line with the National Industrial Policy, the Government Institutions Pension Fund “GIPF” has heeded to the call for Private Sector support in financing growth at home. The GIPF is dedicated to ensuring that Namibia as a net exporter of Pension savings put her capital to good use within the domestic economy. The fund therefor abides by Regulation 28 and 29, going beyond the regulatory requirements in an effort to lead Private Sector participation.

The GIPF wishes to make sound, profit-driven investments. Such investments will be made via professional investment managers as governed by the GIPF’s Unlisted Investment Policy and regulated under Regulation 29 of the Pension Funds Act Number 28 of 1956.

Policy

GIPF’s Unlisted Investment Policy is further segmented into Private Equity and Impact Investing. The key objective of the Private Equity Portfolio is to seek risk-adjusted returns over and above that of the public market.

Proposals in the following areas are thus sought:

1. Private Equity excluding Secondary Purchases
2. Venture Capital excluding Seed Funding

The above streams are for all sectors of business **excluding Property and Real Estate.**

Expressions are sought for **Namibia only mandates** to be awarded to **Namibian registered** entities **conforming to Regulation 29.**

Enquiries: Mrs Sara Mezui-Engo
