

Join us in developing Africa's future leaders and build *your* brand!

We are excited to work with you in developing Africa's Talent. Please select one or more of the following paths to get involved:

1. **Host an ALU Intern:** We have two internship seasons from May to August and September to December. We'd love to have our students connect with you for 8-12 week internships. Please complete [this online internship advert](#) which provides more context on your organisation and the internship opportunity. Our team will get back to you on next steps.
2. **Host a Skype Guest Speaker:** Our students are eager to learn about various industries and sectors as they explore career paths. Volunteer for an hour long skype call with a few students who would like to unpack the insights about technology trends your industry, what characteristics are critical for them to develop to be successful, and what day to day work looks like for you.
3. **Create a 4 min Video on Your Career:** Have your senior leaders or rising stars create a 4 minute video on their phones that help give our students a sense of what it takes to be successful in the workplace and more broadly as a leader in Africa. Guidelines on how to do this can be found [here](#).
4. **Host an Office Visit:** If we have students interning in your city, they would love to come and see your organisation and meet your team. Please email employerpartner@alueducation.com with more details on your office locations and contact information of who the students can coordinate with. We can share some template agendas.

Please email employerpartner@alueducation.com should you have ideas or questions about how to build your brand as an employer of choice within the ALU community and beyond.
